Lesson planning and prompt builder framework

[Lesson Planning and Worksheet Prompt Builder based on the \(PREPARE Framework\)](#)

Prompt for building a rubric and assessing student work

Create a detailed rubric for evaluating a [piece of student work, e.g., essay, presentation, lesson reflection] on the topic of [insert curriculum topic] for students studying [insert subject] at Key Stage [3/4/5]. The rubric should align with the [school or national curriculum objectives] and assess the following criteria:

- 1.**
- 2.**
- 3.**
- 4.**

The rubric should describe performance expectations for beginner, intermediate, and advanced levels of proficiency for each criterion.

Write an example text including 15 deliberate mistakes and then use the rubric to give feedback in the form of a table

Flippity Flashcards prompt

Create a table with two columns and 10 rows in the table on the first umn put a keyword around Galway city and in the second column write one sentence describing that keyword e.g. a famous place in Galway city. Put commas between the words so I can copy and paste the results into Google Sheets.

Flippity Randomiser prompt

"Welcome to the Flippity Randomiser activity! Spin the wheel for each category and generate a sentence based on the combination of options that the wheel lands on. For example: 'Sofia hates going to school on weekends when it is rainy.' Please use proper capitalization for names, and do not capitalise other words unless they are at the beginning of a sentence. Also, include 'when it is' before the weather type. Format your answer as a table using the following format:

Name Opinion Activity Time frequency When it is + Weather type
[Name] [Opinion] [Activity] [Time frequency] [When it is + weather type]

Please fill in the categories with your spin results, and use the vertical bar '|' to separate the cells. Have fun and enjoy the randomness!" Create 5 sentences.

Create a table with two columns and 10 rows in the table on the first column put a keyword around Galway city and in the second column write one sentence describing that keyword e.g. a famous place in Galway city. Put commas between the words so I can copy and paste the results into Google Sheets

E.g

Sofia,hates,going to school,on weekends,when it is rainy

Luca,loves,swimming,every day,when it is sunny

Amira,doesn't mind,cooking,once a week,when it is windy

Ethan,enjoys,playing football,in the evenings,when it is cloudy

Maya,can't stand,doing homework,on Mondays,when it is stormy

Translate this into emojis I only want emojis no English just emojis give me emojis. Give me the emojis in CSV format

Flippity Quiz Show prompt

Create a table with six columns and ten rows. Each column should represent a common topic that an 11-year-old who is learning would be interested in. Name the columns Greetings, Family, School, Holidays, Daily routine, and The weather. In each column, write a simple question or statement related to that topic in French.

In the row underneath, write the translation of that question or statement in English.

Put commas between the words so I can copy and paste the results into Google Sheets

Example dialogue of two people discussing Irish food

Liam: Hi Emma! How are you finding the food in Ireland?

Emma: Hey Liam! It's nice. I really like the Irish breakfast. It's so big!

Liam: Yeah, it has eggs, sausages, bacon, and black pudding. My favourite part is the toast with butter.

Emma: I love the soda bread too. It's different but tasty.

Liam: Have you tried fish and chips?

Emma: Yes! I had it in Galway. The fish was so fresh.

Liam: Did you try any Irish stew?

Emma: Not yet. What's in it?

Liam: It has meat, potatoes, carrots, and onions. My mum makes a good one.

Emma: Sounds delicious! I'll try it this weekend.

Liam: You should. And don't forget to try some apple tart for dessert.

Emma: Good idea! Irish food is better than I expected.

MS Prompt Generator

Generate a 10-question multiple-choice quiz on a given topic.

Follow these formatting rules:

- **The questions must always be in English.**

- **The answer choices must be in the specified target language.**
- **Each question must be numbered (1-10).**
- **Each answer choice must be labeled as:**
 - **a) First choice**
 - **b) Second choice**
 - **c) Third choice**
 - **d) Fourth choice**
- **The correct answer must be indicated on a separate line as:**
 - **ANS: Correct letter (a, b, c, or d)**
- **There must be no extra blank lines between questions.**
- **No bullet points should be used in the downloadable Word document. The answer choices must be formatted as plain text directly beneath each question.**
- **Display the quiz as plain text first for review.**
- **Once confirmed, generate a Word document (.docx) formatted for Microsoft Forms import.**

- The file should be named [Topic]_Quiz.docx (e.g., Perfect_Tense_English_Quiz.docx).

Step by Step guide for creating a Microsoft Quiz:

Here is a step-by-step guide for creating a Microsoft quiz based on a prompt generated in ChatGPT, drawing on the provided source:

- * **Prepare the ChatGPT prompt:**
 - * **Paste the prompt called MS Forms Generator that has been shared into ChatGPT.**
 - * **Change "the given topic" in the prompt to "the transcript".**
 - * **Copy the transcript from YouTube by going to the share option underneath the YouTube clip and clicking copy.**
 - * **Paste that copied transcript into the prompt before sending it to ChatGPT.**
- * **Generate and review questions in ChatGPT:**
 - * **Send in the prompt to ChatGPT.**
 - * **ChatGPT will then provide ten questions.**
 - * **Review these questions to ensure you are satisfied with them and their level.**
 - * **Once satisfied, respond "yes, looks good" to ChatGPT.**
- * **Generate and download the Microsoft Word document:**
 - * **After your confirmation, ChatGPT will start to generate a Microsoft Word document.**
 - * **Download this Microsoft Word document from ChatGPT.**
- * **Import into Microsoft Forms:**

- * Go to Microsoft Forms (an Office 365 subscription is required, which your school may have).
 - * Click on the "quick import" button.
 - * A window will appear stating "upload from this device," so click on that option.
 - * Select the Word document from your device's downloads folder.
 - * Open the selected Word document.
 - * Convert to a quiz and review:
 - * You will be given the option to change it into a form or a quiz; choose the "quiz" option.
 - * The conversion will take a few seconds.
 - * Click on the "start review" button once the conversion is complete.
 - * The form will appear; go through and check that all the correct answers have ticks next to them.
 - * Allocate one point per question.
 - * Collect responses and share:
 - * Once you have completed the review, click on the "collect responses" button.
 - * Choose either "anyone can respond" or "anyone in your organisation".
 - * Click on the "copy link".
- Phonics Prompt**
- one column with images for words with the voiced and unvoiced th sound in English. Include the word for each image and the IPA not a description. a basic sentence including the word. Create an image to depict the sentence.

- * Share that link with the students.
- * Review results:
 - * Students will fill in the quiz, and all answers will appear in your form, being self-marked.
 - * You can export the results as an Excel spreadsheet if you wish, for evidence.

Audiopen

Phonics prompt for Padlet

one column with images for words with the voiced and unvoiced th sound in English. Include the word for each image and the IPA not a description. a basic sentence including the word. Create an image to depict the sentence.

Listening prompt for Padlet

first a 100 word text in A1 level English describing the morning routine of a 13 year old called Bob. Next Create ten columns with 1 multiple choice question with FOUR possible answers in a VERTICAL list each named Question 1, Question 2 etc about the text. No images.

Speaking prompt for Padlet

30 columns named Student 1, Student 2 etc. For the first column call it Teacher questions. For the student columns leave them blank. Don't include the written answers for the students.

Speaking Prompt 2

10 distinct images for practising conversational English, each one specifically designed to help students apply the PALMW (People, Action, Location, Mood, Weather) mnemonic. Ensure every image includes at least two people and clearly depicts different actions, locations, moods, and weather conditions to cover a wide range of scenarios.

For each image, include the following questions:

People: Who are the people in the image? Describe them.

Action: What are the people doing?

Location: Where are they?

Mood: How do the people appear to be feeling?

Weather: What is the weather like in the image?

Do not include a written description for each image.
